

HALLOWEEN 2015 CANDY WITH A CAUSE

Halloween provides the perfect opportunity for you to join the El Paso Zoo as a consumer conservationist! Join the SWEET side of saving wildlife when you make certified sustainable palm oil candy purchases this Halloween.

The palm oil industry is economically vital for the people of Indonesia and other rainforest areas. When you act as a consumer conservationist and support certified sustainable palm oil or palm oil free products, you support both wildlife — and the people making a difference to preserve wildlife habitat.

Purchasing candy on this list helps species worldwide that are connected to your favorite Zoo animals, like orangutans Butch, Ibu and Khaleesi, elephants Juno and Savannah, and tigers Belahat, Seri and Melor!

COMPANY	CANDY
Ce De Candy	Smarties
ConAgra	Cruch & Munch, Fiddle Faddle, Poppy Cock
Endangered Species Chocolate	All flavors and products
Ferrero	Ferro Rocher
Galaxy Chocolate	All flavors and products
Ghirardelli	All flavors and products
Haribo	Haribo Gummy Bears

Topps	Baby Bottle Pops, Push Pops, Ring Pops
Wonka (Nestle)	Gobstoppers, Laffy Taffy, Nerds, Sweetarts
Wriggly's	Lifesavers

WHAT IS PALM OIL?

Palm oil is an edible vegetable oil derived from the palm fruit, grown on the African oil palm tree. This tropical tree is from West Africa, but now grows as in many parts of the world.

Some palm oil plantations are cutting down critical rainforest wildlife habitat to expand their operations - mainly in Malaysia and Indonesia. More than 85% of all palm oil globally produced and exported is from Indonesia and Malaysia, where the palm oil industry is linked to major world issues, including: rapid deforestation, climate change, habitat degradation, animal cruelty and human rights abuse.

An area the equivalent size of 300 football fields of rainforest is cleared each hour to make way for palm oil production. This large-scale deforestation is pushing many species to the threat and reality of extinction. Meanwhile, worldwide palm oil consumption is doubling every 10 years. As an ingredient, palm oil is found in at least four out of 10 food, candy or personal care products.

By only using 100% certified sustainable palm oil, you can make a difference saving wildlife as a ...

consumer conservationist!
